SAFE DRINKING WATER CERTIFICATE

This is to certify that the drinking water facility available at **Pecharthal Class XII School**, Pecharthal Block, Unakoti District, Tripura, was inspected by the officials of the DWS Sub-Division, Pecharthal. The school is provided with drinking water through a water supply connection from the Deep Tube Well (DTW) at Pecharthal Bazar. The source and the connected water supply facility are functional and adequate to meet the drinking water requirements of the students, teaching staff and other staff of the school.

The quality of the drinking water was tested at the Pecharthal Sub-Divisional Laboratory on 31-08-2026, and the test results indicate that the water quality is within the permissible limits prescribed under the applicable drinking water quality standards.

Based on the field inspection and the water quality test report, the available drinking water source and associated facility have been found functional, adequate and suitable for providing safe drinking water to the students, teaching staff and other staff of the school.

It is, therefore, certified that safe and adequate drinking water facility is available in the school premises.

This certificate is issued for official record and for submission by the school authority to the competent authority, including the Central Board of Secondary Education (CBSE), in connection with the extension of CBSE affiliation of the school.

Place: Pecharthal
